ABOUT FMC GROUP

Who We Are

A multidisciplinary advisory firm advancing governance, strategy and sustainable growth.

Founded in 2006, Faisal Malik & Co (FMC Group) has evolved into a multidisciplinary professional advisory firm, providing integrated solutions in corporate governance, strategic management, financial advisory, risk management, leadership development and organisational transformation.

Through our established advisory businesses and professional network, we support corporations, government-linked companies, public institutions and growing enterprises in building stronger institutions, improving performance and creating sustainable value.

PURPOSE
Creating Lasting Value for Organisations and Society

VISION
To be a trusted regional strategic advisory partner

MISSION
Empowering organisations through integrated advisory and transformation

A MESSAGE FROM THE
MANAGING PARTNER

Building Stronger Institutions. Creating Sustainable Value.

In today's increasingly complex business environment, organisations face challenges that extend beyond financial performance and regulatory compliance. Sustainable success requires sound governance, strategic clarity, capable leadership and the ability to translate ambition into measurable results.

At FMC Group, we believe that effective advisory goes beyond identifying challenges. It is about understanding the broader business environment, developing practical solutions and working alongside our clients to strengthen institutional capabilities and achieve lasting improvements.

Our multidisciplinary approach integrates corporate governance, strategic management, financial advisory, risk management, leadership development and organisational transformation. We bring together professional expertise, industry experience and practical insights to help organisations navigate change with confidence.

Our experience across the corporate, public and professional sectors reinforces one fundamental belief: good governance must ultimately contribute to better performance, stronger institutions and sustainable economic prosperity.

As FMC continues to evolve, our commitment remains unchanged — to deliver independent, insightful and value-driven advisory services that make a meaningful difference to our clients and the wider economy.

> *"Good governance must ultimately contribute to **better performance, stronger institutions and sustainable economic prosperity.**"*

OUR APPROACH

An Integrated Advisory Framework

We take a holistic and integrated approach, connecting strategy, people, governance and execution to deliver lasting value.

OUR FIVE ADVISORY PILLARS

01 GOVERNANCE & SUSTAINABILITY

Strengthening governance for responsible and sustainable growth.

- Corporate governance
- Governance reviews
- ESG & sustainability advisory
- Sustainability reporting
- Policy formulation & regulatory advisory
- Board advisory & effectiveness

02 RISK, ASSURANCE & INTEGRITY

Enhancing resilience through robust risk management and assurance.

- Internal audit & co-sourcing
- Enterprise risk management
- Forensic reviews & investigations
- Internal control reviews
- Compliance advisory
- Syariah audit & Islamic financial assurance

03 STRATEGY & FINANCIAL ADVISORY

Turning strategy into measurable outcomes.

- Strategic planning & business advisory
- Financial analysis & modelling
- Valuation & due diligence
- Business transformation
- Investment & project feasibility
- Government advisory & policy support

04 PEOPLE, LEADERSHIP & ORGANISATIONAL TRANSFORMATION

Aligning people, leadership and organisation for higher performance.

- People & business alignment
- Leadership development
- Talent strategy & succession planning
- Organisational design & effectiveness
- Change management
- Culture & performance improvement

05 CAPABILITY BUILDING & MANAGEMENT ADVISORY

Developing capabilities for a future-ready organisation.

- Training & professional development
- Board and management programmes
- SME advisory & mentoring
- Institutional capacity building
- Diagnostic reviews
- Knowledge sharing & thought leadership

FMC GROUP
We help businesses innovate and grow

OUR SERVICES

01

Governance & Sustainability

Strengthening governance for responsible and sustainable growth.

Our Approach

We help organisations build strong, transparent and resilient governance structures, while embedding sustainability practices that create long-term value for stakeholders.

Our approach combines global best practices with local insights, supporting boards and management in navigating evolving regulatory, ESG and stakeholder expectations.

Key Focus Areas

Corporate Governance
Board effectiveness, governance reviews and advisory

ESG & Sustainability
Strategy development, ESG reporting and disclosure readiness

Policy Formulation & Regulatory Advisory
Policy analysis, regulatory impact and government advisory

Board Advisory & Effectiveness
Board assessment, committee effectiveness and governance frameworks

Sustainability Reporting
Reporting frameworks (e.g. IFRS S1/S2), materiality assessment and assurance readiness

Responsible Business Practices
Embedding sustainability into strategy, risk and operational practices

Client Outcomes

- Stronger governance structures and decision-making
- Improved ESG performance and stakeholder confidence
- Better regulatory preparedness
- Enhanced long-term value and reputation

Selected Engagements

Governance Review & LOA
Comprehensive governance review and enhancement of Limit of Authority for a statutory body (2026).

ESG Advisory
ESG reporting, sustainability strategy and capacity building for corporates and public institutions.

National Policy Engagement
Advisory support to government agencies on governance, regulatory and sustainability matters.

FMC GROUP

We help businesses innovate and grow

OUR SERVICES

02 Risk, Assurance & Integrity

Enhancing organisational resilience through robust risk management, independent assurance and ethical governance.

Key Service Areas

Internal Audit & Co-Sourcing
Risk-based internal audit, co-sourcing and quality assurance.

Enterprise Risk Management
ERM framework, risk assessment and risk governance.

Forensic Reviews & Investigations
Fraud risk assessment, independent reviews and investigative support.

Internal Control Reviews
Control assessment, process reviews and improvement plans.

Compliance Advisory
Regulatory compliance reviews and governance of regulatory obligations.

Syariah Audit & Islamic Financial Assurance
Syariah governance, Syariah audit and Islamic finance advisory.

Our Approach

01 Understand
Assess risk environment, regulatory requirements and organisational objectives.

02 Analyse
Identify key risks, control gaps and integrity considerations.

03 Design
Develop practical, risk-based solutions tailored to the organisation.

04 Implement
Support implementation and build internal capability.

05 Sustain
Embed continuous monitoring, reporting and improvement.

Client Outcomes

- Stronger risk governance and control environment
- Improved compliance and regulatory readiness
- Enhanced organisational resilience
- Greater stakeholder trust and institutional integrity

> Effective risk management and assurance create the foundation for sustainable growth and long-term value.

Kenaikan SST dianggap tak kena masa

KUALA LUMPUR (March 14): The Malaysian Institute of Accountants (MIA) reminded accountants on Tuesday (March 14) that digital transformation and competency building must be integrated with professional values and a code of ethics to good governance.

MIA vice-president Mohamad Faisal Abdul Malik said this would protect public interests and the nation’s well-being.
